Luxyde
World

Luxyde

Welcome to the magical world of Luxyde - The new international brand behind the luxurious and intriguing art design collections created to enhance the finest homes, art gallery, hotels and most prestigious resorts around the world. High-quality manufacturing, fine materials, advanced LED technology and the unique style of the famous designer Giancarlo Zema, are what shape these masterpieces, specially dedicated to lovers of luxury. We carefully select the best and highest-performing materials and, day after day, check the craftsmanship of the finished product in order to cater to an increasingly demanding and sophisticated clientele. We work with designers from around the world to select the product that best meets their customers' needs, providing guidance and useful information to find the perfect indoor and outdoor furnishings. This is Luxyde's philosophy, the new brand which stands out for its refined originality and its elegant high-design collections.

Designer

Luxyde in its vision towards achieving unexpected and luxurious design, has entrusted the famous Italian architect Giancarlo Zema with realising the dream to create innovative and evocative furniture in absolute harmony with nature. The architect, Zema, who has long been enticed by nature and its shapes, has created a series of highly sculptural and functional collections for Luxyde, including Bright Woods, Bright Stones, Leaf, Octopus and SimoGi, providing a poetic and instinctively appealing response to the world of interior and outdoor design. Since 2001, Zema has headed up the Giancarlo Zema Design Group, an architectural studio specialising in the design of eco-sustainable projects, semi-submerged architectural structures, floating habitats, yacht and interior design.

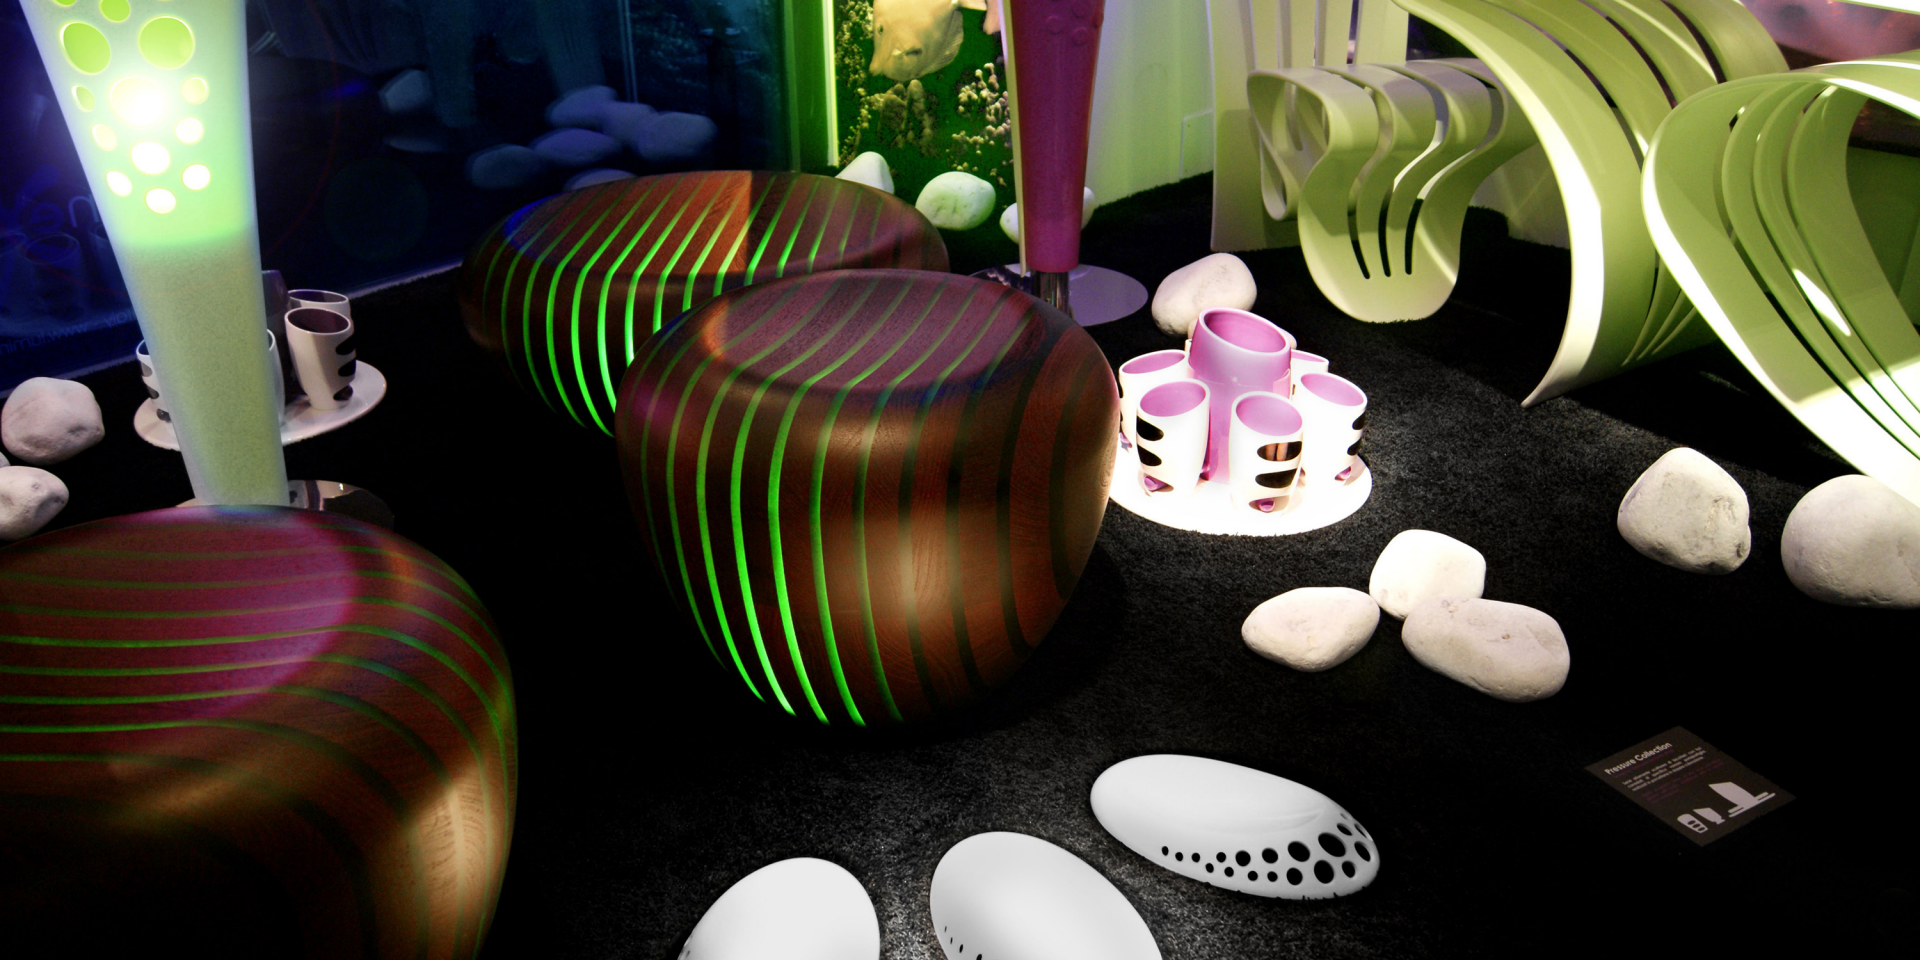

Bright Woods Collection

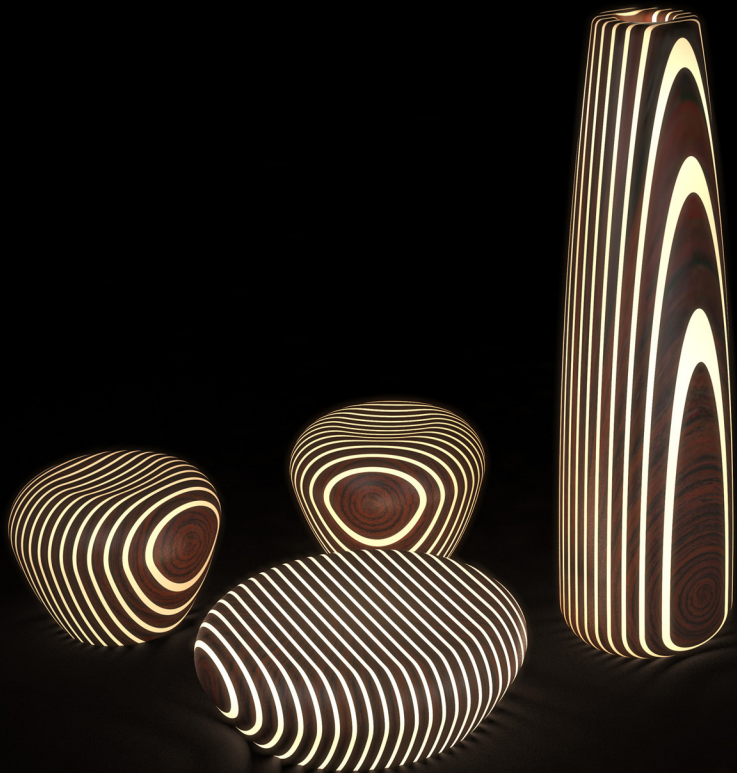

Bright Woods Collection

An enchanted forest of trees that light up at dusk, this is vision that led designer Giancarlo Zema to create an exclusive series of ethnic furniture for Luxyde. The range features soft shapes and natural materials such as wood scratched by a flurry of resin rings that light up with LED technology and an RGB colour-changing effect. A collection with table, chair, coffee table, stool, armchair, floor lamp and bedside lamps, to stylishly and poetically furnish the most exclusive spaces from hotels to boats.

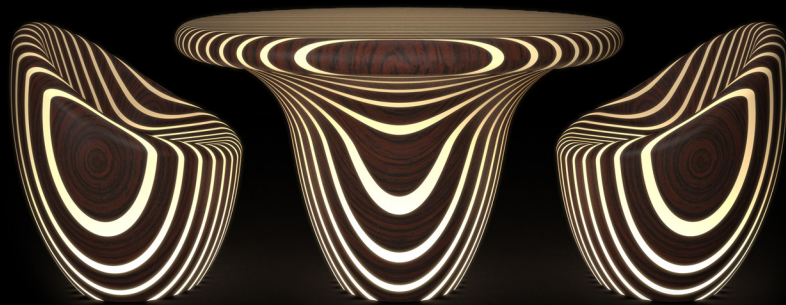

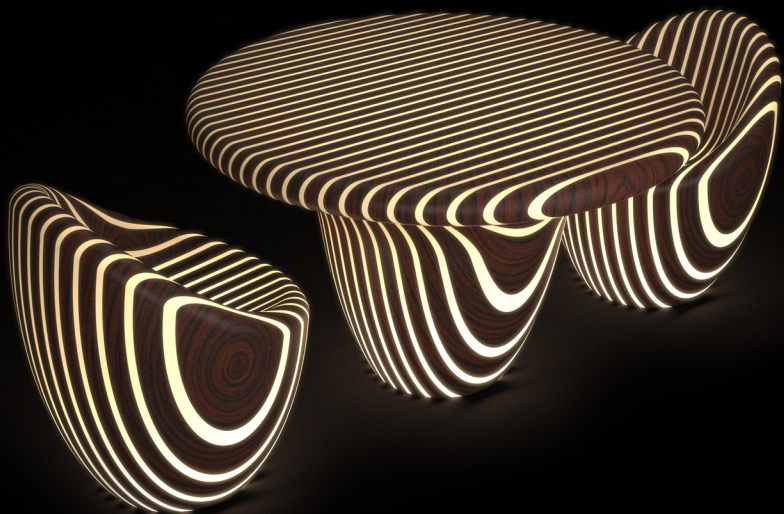

Pressure Collection
The vessels in this collection are made from a special type of ceramic that is fired at a high temperature, resulting in a material that is both strong and lightweight. The vessels are designed to be used for a variety of purposes, including as a water container, a storage vessel, or a decorative object.

Power supply: 220 V

Lighting type: on request, high power RGB LEDs multicolor | White LED | White LED with warm / cold lighting variation.

Wireless version: on request with rechargeable battery 5 hours life.

DMX option: on request

Remote control: included, radio frequency control unit for RGB colors changing program.

Technology and comfort

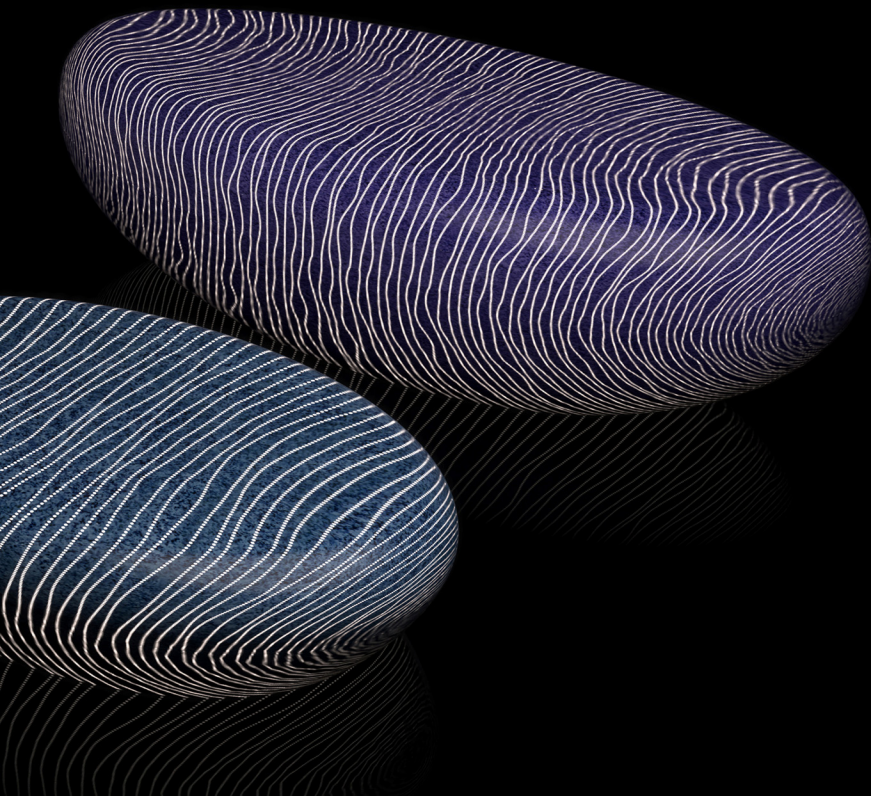

The LED system for lighting control, included, is absolutely innovative and offers many advantages. Simply by using the remote control, you can change the effects and timing of your Bright Woods and the environment that surrounds them. The DMX System on request lets you to plan and to harmoniously coordinate the lights in unison and in real time. You will be able to manage all your Bright Woods objects, choosing colors, lights games or to select the color to light. In addition you can chose the light's speed, its intensity or lighting effect, even from differently rooms. You'll have the freedom of implementing your creative ideas and give the right atmospheres for every your environments, which are virtually unlimited and your Bright Woods will become even more extraordinary and fascinating design.

Product care

The feature of your Bright Woods is similar to varnished and precious wood for this reason that they have to be cleaned with a soft micro-fiber cloth, lightly dampened with water and never use abrasive or scouring cleansers containing strong acids, silver cleansers, organic solvents such as ethyl alcohol, acetone, turpentine, ammonia. In event of damage, Bright Woods items can be re-sanded and re-varnished for a rebirth.

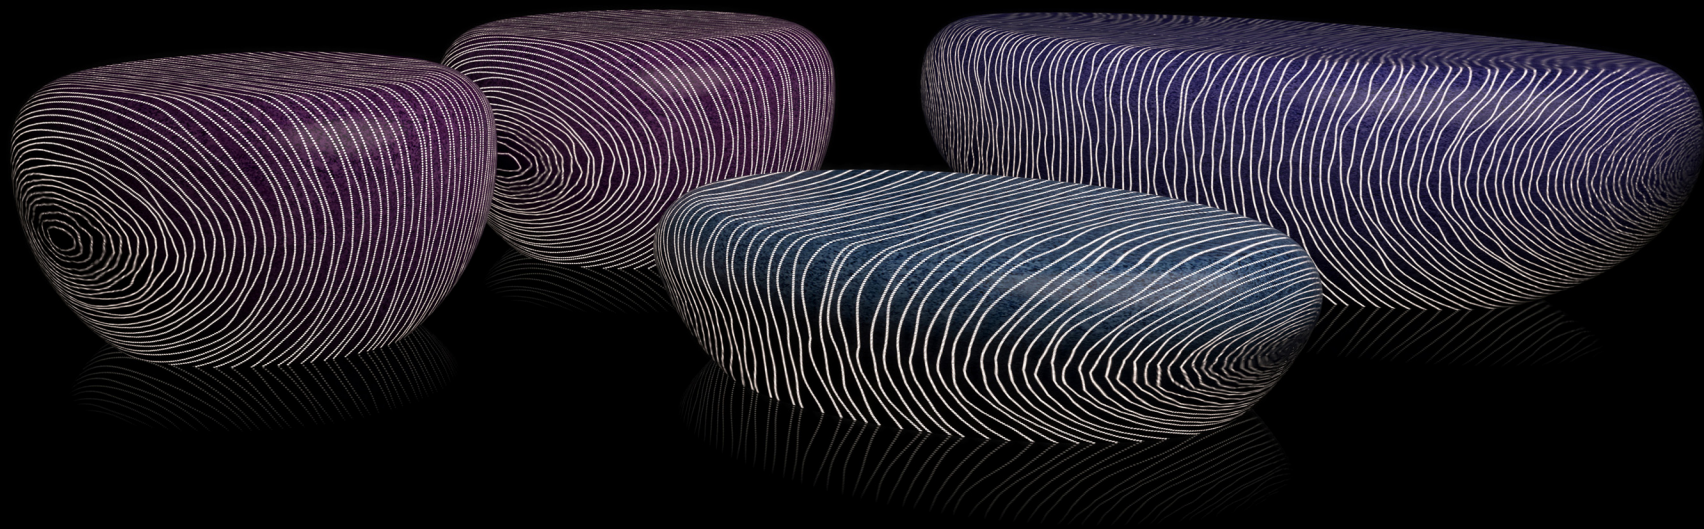

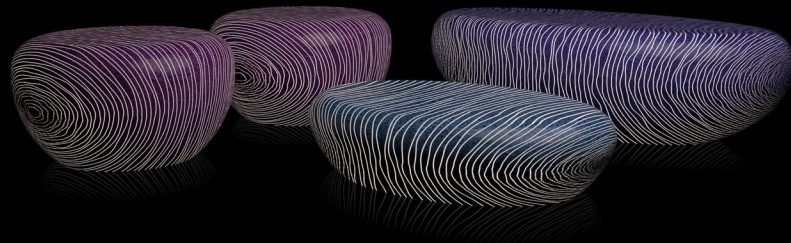

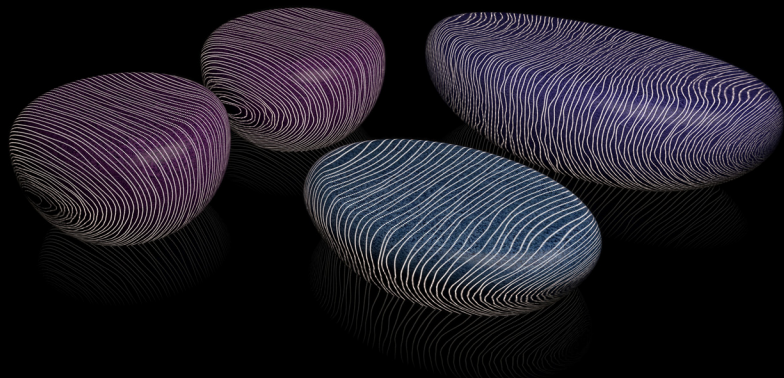

Bright Stones Collection

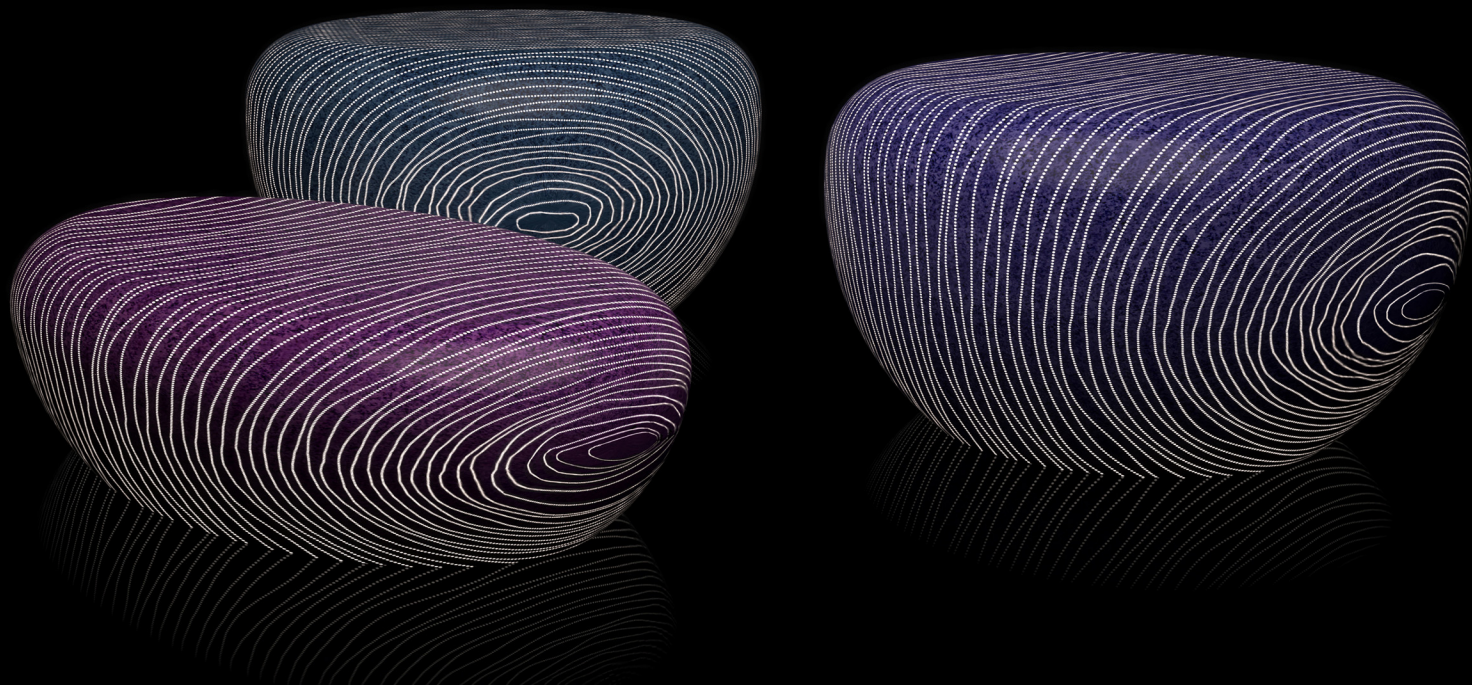

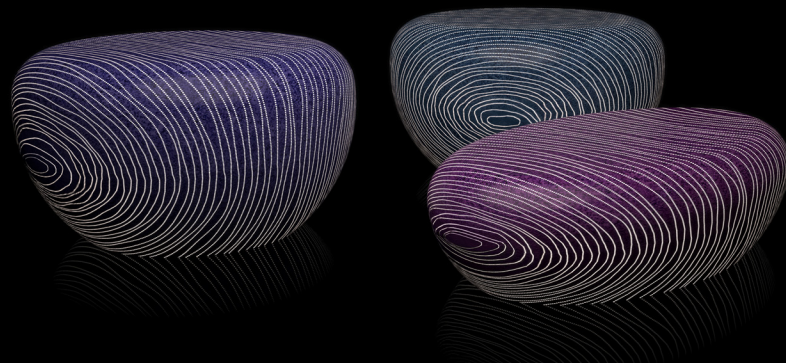

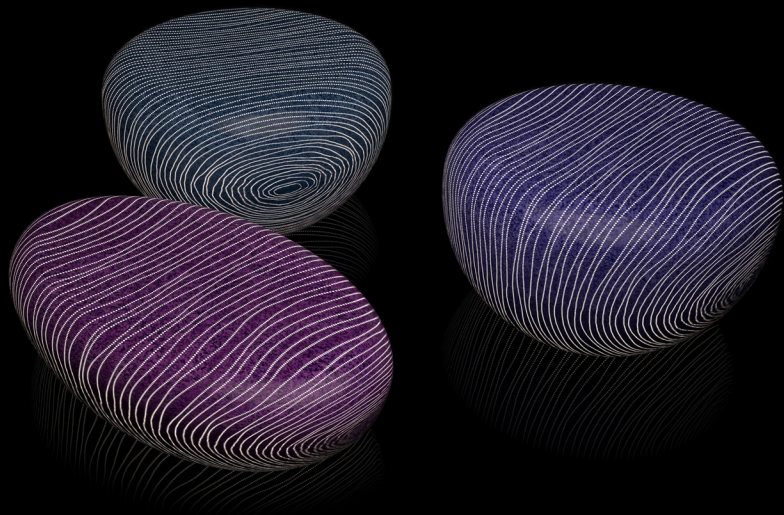

Bright Stones Collection

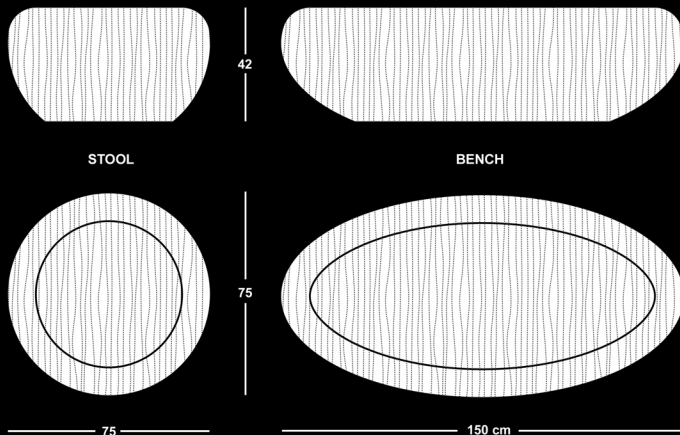

Large matt stones stand out as substantial and sensual, like fascinating organic sculptures that light up at dusk as if by magic. This was the vision of architect Giancarlo Zema when creating an exclusive range of outdoor furniture for the Luxyde brand. Seats and a coffee table made of translucent eco-cement where the countless veins come to life through the fibre optics, LED technology and RGB colour-changing effect. A limited edition collection of extreme luxury, ideal for furnishing gardens, pool sides, private villa spas and the most exclusive hotel facilities with a unique and almost poetic touch.

Leaf Collection

Leaf Collection

A sinuous, flexible and soft leaf bending on itself: architect Giancarlo Zema was inspired by this vision to create his new extraordinary design collection of living solutions - table and chair - for Luxyde. DuPont™ Corian®, a contemporary material shapes precious unique pieces, brightly coloured, like the flexible-backed chair that fits itself to the body. The collection is an exclusive signed and numbered limited edition of n.120 chairs and n.60 tables.

Designer: Giancarlo Zema

Brand: Luxyde

Edition: numbered limited edition, n.60 tables and n.120 chairs

Environment use: indoor or outdoor

Materials: DuPont™ Corian®

Colours: standard and other on demand

Classifications

Fire resistant: B1

Technology and comfort

Collection realized in thermoformed corian solid surface. A recyclable composite material made of 2/3 alumina trihydrate and 1/3 acrylic polymer, making it extremely resistant to impact as well as mould and bacteria. In case of deep scratches or serious material damage can be restored.

Product care

Use a damp cloth with a mild cream abrasive cleanser. Always act in a circular motion. Never use abrasive or scouring cleansers containing strong acids, silver cleansers, organic solvents such as ethylic alcohol, acetone, turpentine, ammonia.

Standard colors

Octopus Collection

Octopus Collection

Lengthening one of its sinuous tentacles, a curious and colorful octopus emerges from the seabed, bringing shape, colour and vital light. With this vision, the architect Giancarlo Zema designs an elegant collection of floor, suspended and wall lamps in DuPont™ Corian® for Luxyde. A contemporary corian lamps bicoloured where the floor lamp has a steel base, dynamic RGB LED technology with remote control, 210 cm height and 35 cm in diameter. An intriguing collection for art-design lovers.
